- Hello ladies, can I ask you a few questions ?

About what ?

- We're currently working on a phone application for our school, and we have to ask a few questions to « old people ». So can we ask you some questions ?

Haha, yeah why not !

- OK ! So, what kind of phones do you girls have ?

I don't have one.

Me neither.

I have this one. (shows an old phone)

I have the same as her.

My son bought me a phone.

- Would you be interested in an application to communicate with your relatives ?

Probably, but I don't really use my phone other than to call people.

Maybe, but I would have to try it first.

I don't know if I'll be able to understand how it works, it's usually not easy to use for me.

I already use WeChat to do that.
